

MISSION

“Serving the Nation’s Space Weather Needs.”

Space Environment Center

continually monitors and forecasts Earth’s space environment;

provides accurate, reliable, and useful solar-terrestrial information;

conducts and leads research and development programs to understand the environment and to improve services;

advises policy makers and planners;

plays a leadership role in the space weather community; and

fosters a space weather services industry.

Space Environment Center is the Nation’s official source of space weather alerts and warnings.
